1. *A BRIEF REMINDER*: Hold the card 14 inches from your eyes. Wear your glasses if needed for reading.
2. Cover one eye, look at the center dot with the uncovered eye, *keep your vision fixated on that dot*, note any visual distortion using your side/peripheral vision, then repeat this procedure using your other eye.
3. If the lines look irregular (wavy, blurred, empty, or discolored), promptly call our office.
